

Script / Utility www.dominioweb.org

Crea link vibranti

Se volete far vibrare il link al passaggio del mouse, non avete che da copiare questo codice, inserendolo tra <head> e </head>.

(in blu il codice da copiare):

```
<script language="JavaScript" type="text/javascript">  
  
// Prelevato su http://web-link.it  
  
// CREDITS:  
  
// Textlink-Shaker onMouseOver  
  
// by Urs Dudli and Peter Gehrig  
  
// Copyright (c) 2000 Peter Gehrig and Urs Dudli. All rights reserved.  
  
// Permission given to use the script provided that this notice remains as is.  
  
// Additional scripts can be found at http://www.24fun.com/fast/index.html
